Question: What do you call an animal that lives in the water that looks like it's wearing lipstick?Answer: Black fish.22. Chemistry plays a huge role in biological processes, and these questions answer why©.14. Genetics is a game we play in Biology. Thank you very much for your cooperation. Question: What are the important biomolecules?Answer: Proteins, Nucleic Acids, Carbohydrates and Lipids.15. Where is the DNA inside a cell? Question: Which part of the plant cell is used for preservation?Response: A Vacuum cleaner.27. Question: Which cells create new bones?Response: A Osteoclasts.Chemical Biology Trivia Questions - A Hard Biology TriviaBiology Trivia Questions are not entirely bio-related. A Cell respiration is important because \_\_\_\_\_ . A Uses CO2 and sugar to produce energy (ATP) Uses O2 and sugar to produce energy (ATP) We use \_\_\_\_\_ in ecology to help model how energy is transferred from one organism to another. He was the scientist who discovered the Theory of Evolution. The wide range of plants and their various processes can be so unique, and \_\_\_\_\_ this makes them interesting. Question: What is the hair structure that occurs on plants, which are similar to that seen on mammals?Answer: A Trichome.34. Questions range from easy to difficult and will test you on a range of different topics related to biology, as well as some curiosities. general. It helps to destroy invasive species. Question: A What kind of octopus is able to imitate jellyfish, sea snakes and sparrows?Answer: The mimic octopus.20. a) contains an anticodon) specifies the sequence of amino acids for a protein) contains exons) has amino acids (covalently attached) \_\_\_\_\_ a component of ribosomes) \_\_\_\_\_ the most abundant form of RNA A) b, d - tRNA, c - mRNA, e, f - rRNA B) a, c - B, D - MRNA, E, F - RRNA C) A, E, F - RRNA, B - MRNA, C, D, TRNA D) None of the previous points a) A, B, D - TRNA, C - MRNA, E, F - RNA b) A, DC tRNA, b, d - mRNA, e, f - rRNA (C) a, e, f - rRNA, b - mRNA, c, d - tRNA (D) None of the above answers and explanations Reply: A) a, b, d - tRNA, c - mRNA, e, f - rRNA Explanation: Option A) a, b, d - tRNA, c - mRNA, e, f - rRNA is the ordered description provided describing the type of RNA. The virtual pub quiz shows are still a real anger all over the country, with the quiz fans familiar with the scientific evidence provided with all online queries. Genetics is the study of genes and heritability. A Response: A 200.12. So, how much do you know about some of our primary producers? When AYou have finished answering as many questions as you can, scroll down to the bottom of the page and check your answers. Question: What protein helps in the degradation of aged and damaged cells, aiming to destroy them?Response: A Ubiquitin.11. Studying life that exists in the depths of the oceans and other bodies of water is fascinating and very challenging! But the biologists explored the deep waters and found some really interesting creatures that exist there. Question: What's the name of eye phobia?Answer: A Ommetaphobia.2. Question: What gives blood its red color? Answer: A Porphyrin ring attached to iron in hemoglobin.3. Question: What is the toughest bone in the human body?Answer: A The jaw.4. Question: How many gallons of blood are there in the human body?Answer: 1,2-1,5 gallons or ten units. 5. Question: Which organ in the body can process the pain but can't feel it?Answer: A The Brain.6. Question: "How many bones are born and how many are reduced?Answer: A 300 at birth, this reduces to 206.Trivia Biology About CellsWhether they are plants or animals, while we go deeper' in the mass of any multicellular organism, we can find the bricks that make us there' that we are and make us Forward: cells! Take these trivial questions about cell biology to find many good biology questions to recharge your Question: Nucleus + Cytoplasm = ?Answer: A Protoplasm.8. Question: A What is the lipid membrane model of the cell membrane called?Answer: The fluid mosaic model.9. Question: A What part of the cell's covering do plant cells have that animal cells don't?Answer: A Cell wall.10. 11 Questions | Total Attempts: 17522 Decreased Nature Alliance What do we call the most basic structure of living things? Biology is the study of every organism on the planet and their life, is there really anything you won't love about it?In these questions and answers about biology, we are going to find out a lot about life and its participants. Question: What flower name is similar to the processor we use in our electronic gadgets?Answer: A Snapdragon.38. Question: A What are the two pom-poms of boxer crabs?Answer: A Anemones.21. Question: Which plant bulbs were valued more than gold in the 1600s?Answer: Tulip.Here at Kidadl, we have carefully created lots of interesting family-friendly trivia for everyone to enjoy! If you liked our suggestions for biology trivia for budding scientists, then why not take a look at our anatomy trivia or science trivia for more? A Question: Which component of a plant cell helps in photosynthesis?Answer: Chloroplasts.28. It uses O2 to produce sugar and CO2 as waste. A A18. Question: A What plant is considered to be a living fossil and is said to survive for 1000 to 2000 years with just around three inches of rain a year?Answer: A Welwitschia mirabilis.35. View Answer Report Error Discuss Biology Quiz The study of biology covers a wide range of interesting topics that include genetics, cells, photosynthesis, microbiology, ecology, botany, evolution, DNA, viruses and bacteria. Back to top Q: Sort each description by the type of RNA it describes? Where can it be found?Answer: Rafflesia arnoldii, it is found in the rainforests of Sumatra, Bengkulu, Malaysia and Indonesia.31. Question: What is the name of the Flower that loves shadow and is called scientifically Torenia? Answer: Fercella flower.36. Meiosis is a process that helps produce \_\_\_\_\_ and \_\_\_\_\_ sex cells and genetic diversity. Question: What is the branch of science that studies plants? Answer: A, botany.26. What chemical compound is the person responsible for everything? Answer: sulfuric compounds.39. Question: Is all the invertebrates in cold blood? Answer: a, yes.plant biology facts and triviaPlants are essential suppliers of nutrition as well as oxygenators and are collectively called flora. He was a racing car pilot. Question: Which part of the plant is responsible for transporting water? Answer: A, xylem.30. Question: What is the division of chemical biology that studies sugar molecules? A, glycobiology.17. Question: A, what are the flower plants are called? Answer: A, angiosperme.37. Question: A, What is the name of the protein that was taken by a jellyfish, which helps to display the microscopic proteins? Question: Which fish has received the most ugly animal title in the world? Answer: Blobfish.23. So the next time you are in House Party, Google Hangouts, Zoom or Messenger, go a little deeper with the favorite science of all - biology.Radiotimes.com is here with a ride dedicated to biology that you can use to Your next online rally A e a e A "Read for 20 Finnish questions! Answers under A e a e A "No cheat A e a e The score: Classification 0%: Correct answer: The quiz starts >> Welcome to bio-trivia! The crowd world of science gave us an incredible study of life, and We are here to test all our brain about it. Because not trying to answer these questions about the biology of the human body, based on id id opit ehC: adnamoD .33.sehtnepeN A atsopsii?urovinrae nu "A de spuC yeknoM emoc aton "A atnqip elauQ :adnamoD ?aigoloh id itaf id ilausac is a plant, in terms of cells?Answer: Multi-cellular.29. Question: How many different cells are there in our body? Ready, set, go!1. He was a scientist who discovered DNA. Question: What is the scientific name of one of the rarest plants in the world, which is also known as the corpse plant? Challenge your knowledge of these topics by taking our fun biology quiz. Question: A Which branch of science helps us take a closer look at cells?Answer: A Microscopy.13. Genetics talks about trees. Question: A Are all proteins enzymes?Answer: A No.16. Are you ready to play a game all about the science of life? Score: 0% Rank: Correct Answer: Start Quiz >> In order to continue enjoying our site, we ask that you confirm your identity as a human. In order to identify the probability of inheritance, we can use a \_\_\_\_\_. Question: When we cut onions, we start tearing up. Photosynthesis is a chemical reaction that is important because \_\_\_\_\_. A It uses CO2 to produce sugar for producers and O2 as waste. We have some really crazy biology facts about the bones and blood vessels here too! For all you quiz-masters who love animals, you should also check out our horse trivia and shark trivia too!A Human Biology Trivia - Easy Biology QuestionsHuman bodies are full of extremely complex mechanisms that are performed by really skilled organs. Do you know them?19. Question: Why is the Dragon's Blood Tree, which is found on an island in Yemen, called so?Answer: Its sap is blood-red in color.32. Find out with these plant trivia questions about biology.25. Question: A Who is the Father of modern marine biology?Answer: A James Cook.24. Question: A What is the enzyme that facilitates the transfer of a phosphate group to a protein substrate?Answer: Kinase. Kinase.
